

## JOB DESCRIPTION - Infrastructure Associate

- Company** : MoneyMatch Sdn Bhd ([www.moneymatch.co](http://www.moneymatch.co))
- Position** : Infrastructure Associate (Tech Support)
- Reports to** : Chief Operating Officer
- Location** : Kuala Lumpur, Malaysia
- Salary** : Competitive Base Salary between RM 2,500 to RM 4,000 (depending on experience)

### The Role

The Infrastructure Associate will be responsible for the operations and administration of the company's infrastructure including day-to-day support as well as resolving any technical issues. The role requires the candidate to monitor the integrity and availability of all infrastructure resources, systems and key processes daily while reviewing system and application logs verifying completion of scheduled jobs such as backups and data feeds. This dynamic role in a leading FinTech startup will also involve working with the team in any related administrative and general requirements of the business as and when required (we're a fast scaling startup so everyone chips in!!)

### Requirements:

- Candidate must possess at least a Degree in Computer Science, Information Technology or equivalent fields
- Preferably 2 years of IT infrastructure experience in the area of end-user workplace technologies include but are not limited to SCCM, VDI, Citrix, Endpoint security and end-user computing (fresh graduates are encouraged to apply as well)
- Thorough understanding of various operating systems, security, LAN technology, communication protocol and mediums, internet technology and configuration, and knowledge in diagnostic and troubleshooting skills
- Knowledge in AWS will be an added advantage
- Ability to perform at a high level without significant supervision and with attention to detail
- Candidates must be innovative, confident, accountable & have a strong sense of self-initiative

**Earliest Starting Date** : 1<sup>st</sup> July 2017
